in Alameda County

Is your home drafty on rainy days or stifling hot on summer days?

Planning to put in a new furnace or add insulation or just wondering how to make your home more energy efficient?

If so, check out **Energy Upgrade California** – a statewide program that offers homeowners rebates up to \$4,000 for doing energy-saving work on their homes. Most homes in Alameda County are leaking energy – and the heating and cooling costs can add up.

Check out www.energyupgradeca.org for more information, including rebate guides, lists of specially trained participating contractors, and much much more!

And now, **Energize for the Prize** is donating \$100 per upgrade to the local school of your choice. One more reason to make an upgrade soon!

To help raise money for your local school, go to www.EnergizeforthePrize.org, or email info@energizefortheprize.org

Interested, but not sure if it's right for you? Come to the upcoming **FREE Homeowners Workshop in Fremont!** You'll get a chance to speak with contractors about your home, hear from homeowners who have done energy upgrades, and ask program staff questions you may have about rebates, financing or anything else.

Wednesday, January 18th, 6:30-8pm
Niles Conference Room
City Of Fremont Development Services Center
