DOG LICENSE APPLICATION AND FEE SCHEDULE

The City Municipal Code # 8.08.010 states that every person within the City owning, possessing, controlling or keeping any dog over four months of age is required to procure a dog license tag for each dog.

A current rabies vaccination is mandatory before a new license is issued. If a rabies vaccination is due for your dog, obtain the rabies shot and send in the new vaccination certificate with this application form. You may license for one, two or three years, based on the vaccination expiration date.

If your dog is neutered or spayed, it should be indicated on the rabies certificate. If not, you will need to mail the "Certificate of Alteration" with your application. Any documentation that you submit will be returned to you when your license certificate and dog tag is issued.

Please complete the information requested below and return in the envelope provided.

Dog Owner's Last Name: _____ First Name: _____
